[LinkedIn](#)

Highly motivated biotechnologist passionate about Data Science and Biostatistics. Experienced in Pharma Medical Department. Expertise in R, Python, JavaScript programming and proficient in Excel, powerBI for Data Analysis, Statistical Analysis and Process Automatization.

WORK EXPERIENCE

Safety & Clinical Data Systems Specialist – Laboratorios Farmacéuticos Rovi (2023-Present)

- Analysis of Clinical and Safety Data using R and Excel
- Administration and validation of Safety and Clinical Databases
- IBM Cognos and powerBI reporting
- Managed projects focused on system efficiency and end-to-end data validation frameworks
- Deployment of automated processes through JS scripts in cloud SaaS
- GVP/GCP Audits and inspections experience

Senior Pharmacovigilance Specialist – Meisys (2023)

Pharmacovigilance Officer – Meisys (2021-2022)

- Management of ICSRs and Literature Monitoring
- PV system maintenance (PSUR, PSMF, Signal Detection)
- PV training: GVP, European and local legislation
- SOP and SDEA revision, audit experience

EDUCATION

MSc in Bioinformatics and Biostatistics – Universitat Oberta de Catalunya (2022-2025)

MSc in Biomolecules and Cell Dynamics – Universidad Autónoma de Madrid (2020-2021)

BSc in Biotechnology – Universidad de Zaragoza (2016-2020)

LANGUAGE SKILLS

English – Fluent – Certificate in Advanced English

French – Conversational – DELF B1

Portuguese – Basic (B1)

Spanish – Native Speaker

COURSES, GRANTS AND CONGRESSES

XIII National Pharmacovigilance Congress – Oviedo (2024)

Biostatistics and NMA in Clinical Research – Meisys (2023)

Erasmus Program – University College Dublin, Ireland (2019)

TECHNICAL SKILLS

- Languages: SQL, Python, R, JavaScript
- Tools: Microsoft Excel (Macros, Data Analysis, DAX), Power BI

SOFT SKILLS

- Leadership, strong teamwork and collaboration abilities
- Self-motivated and quick to learn new skills autonomously
- Proactive in identifying and preventing potential issues
